STRENGTH TO RULE

A Venture by **Aaryavart Group**

ABOUT US

Icon Infra is a construction management company dedicated to serving the private sector in Ahmedabad & Gandhinagar, delivering the same commitment to excellence and technical expertise that has defined Aaryavart Infrastructure.

Since Aaryavart Infrastructure began its journey in 2002 as civil works contractors, we have grown to become independent contractors for the Government of Gujarat. Over the years, we have built a strong reputation as a leading construction company, specializing in a wide range of civil construction services, including infrastructure development and material supply. With the establishment of Icon Infra in 2023, we have expanded our focus to offer construction management services to the private sector. Our goal is to provide the same high-quality service and attention to detail that has always been the hallmark of Aaryavart Infrastructure.

At Icon Infra, we are committed to sustainability, prioritizing the health and safety of our workforce, and ensuring client satisfaction through transparency, quality, and durability. Specializing in the planning, management, and execution of construction projects, our diverse client base and extensive project portfolio reflect our dedication and expertise in the industry.

MISSION

To deliver exceptional real estate solutions through innovative construction practices, ensuring quality, sustainability, and value for our clients.

VISION

To be a leading name in the construction industry, recognized for our commitment to excellence, integrity, and transforming spaces into thriving communities.

GOAL

To continuously enhance our construction methods & services, achieving customer satisfaction & contributing to the development of modern, sustainable infrastructure.

KEY BUSINESS SEGMENTS

PROJECT MANAGEMENT

We deliver comprehensive project management services, ensuring timely completion and adherence to quality standards. Our expert team oversees every phase of construction, from planning to execution.

Our construction management segment focuses on optimizing resources and managing construction processes efficiently. We handle logistics, scheduling, and coordination to ensure smooth project operations.

CONSTRUCTION MANAGEMENT

DESIGN AND BUILD

We offer integrated design and build solutions, combining architectural and engineering expertise with construction services. This approach streamlines project delivery and enhances overall efficiency.

We specialize in developing infrastructure projects, including roads, bridges, and utilities. Our focus is on creating robust and sustainable infrastructure that supports community growth and development.

INFRASTRUCTURE DEVELOPMENT

KEY BUSINESS SEGMENTS

CONSTRUCTION OF DIAPHRAGM WALL

We specialize in diaphragm wall construction, offering high-quality, efficient solutions with minimal noise. Our reinforced concrete walls, crafted through a precise process, meet global standards while ensuring environmental sensitivity & safety.

We provide end-to-end turn-key solutions, managing all aspects of construction projects from inception to completion. Our approach ensures a seamless process and delivers high-quality results.

TURN-KEY SOLUTIONS

TRADING OF CONSTRUCTION MATERIAL

Our efficient trading practices ensure high-quality construction materials, expertly selected for performance. Strong supplier partnerships allow for quick and cost-effective delivery.

Our consulting services provide strategic guidance and expert advice on various aspects of construction projects. We help clients navigate complex challenges and achieve their construction goals effectively.

CONSULTING SERVICES

OCCUPATIONAL HEALTH & SAFETY

we prioritize the health and safety of our workforce. Our commitment extends to implementing rigorous safety protocols and maintaining a safe working environment across all our construction sites. We adhere to industry standards and continuously update our safety practices to ensure the well-being of every team member. Our proactive approach includes regular training, hazard assessments, and the use of advanced safety equipment to prevent accidents and health risks.

- Ensure a safe working environment for all employees on site.
- Require all employees to wear safety gear, including hard hats, safety vests, protective gloves, and protective shoes.
- Encourage all team members to follow and adhere to safety guidelines.
- Ensure each site complies with government health regulations.
- Educate employees about health and safety standards, ensuring they are aware of all rules and regulations.
